LUXURY HOME

8

HOME HIGHLIGHTS

Square Footage: 8,230
Number of Bedrooms: 5
Number of Bathrooms: 7
Style: Mountain Retreat

Surrounded by great schools, trendy restaurants, and convenient shopping, this luxury model built by Divine Custom Homes is located in the wonderful community of Afton. Just minutes from downtown Woodbury, the area is a perfect balance of rural and metropolis. The homeowners' large, private lot allowed them to build the home of their dreams. With the expertise of the Divine team, they created an 8,230-square-foot sanctuary that blends a modern style with a mountain retreat feel.

The five-bedroom, seven-bathroom home features spaces with incredible style that are tailored to the owners' liking. The kitchen stands out with 12-foot ceilings; sleek, modern style kitchen cabinets and island; a custom iron hood; and rustic beam accents. The combination of materials and textures used throughout the home, including concrete, char wood, stone, Shou Sugi Ban wood, and iron work, excites the senses. While this house is modern, the environment feels warm and inviting—a place to hang out with family and friends. A two-story stone fireplace serves as the cozy hub of the home in the great room.

This home's contemporary style is accented by its U-shaped structure crafted by architectural designer Tami Sherman. The kitchen, great room, and master suite all look out onto an outdoor living space that serves as an extension of the home. Large windows and tons of natural light create a space that brings the outdoors in. With the Midwest's short seasons, this design allows the owners to make the most of the outdoors conveniently from their favorite rooms of the home. This home is a must-see.
